

ARAB EAGLE
MODERN ENGINEERING CO

COMPANY PROFILE

CEO MESSAGE

“ As the head of a group committed to excellence, I take great pride in our work. Our dedication to safety and innovation makes us who we are. We are aware of how important insulation is in keeping pipes safe.

You can put your trust in a partner who appreciates both your achievement and the health of our common space when you work with Arab eagle modern engineering Co. We aspire to implement comprehensive thermal insulation solutions across the entirety of Egypt's industrial landscape, encompassing every manufacturing facility and maritime vessel within our nation. ”

OUR VISION.

In Arab Eagle Modern Engineering Co we are a “people first” company, our vision for our team is to expand the number of our workforce by time and contain larger families by offering more job opportunities. As our vision for our company is to be one of the leading construction company in Egypt and worldwide, spreading joy and happiness through our every project we undertake projects and creating a positive impact on the lives of our clients, employees, and communities.

Arab Eagle aims to lead and implement comprehensive thermal insulation solutions all over Egypt with the highest safety and sustainability standards.

OUR MISSION.

As "Arab EagleModern Engineering Co" we are on a quest to revolutionize the construction industry in Egypt by hunting down the perfect blend of dedication, quality, safety, integrity and of course fun. Our Mission is to provide superior construction services and to expand into new areas by leveraging our expertise, state-of-the-art technology, and a dedicated team of professionals. We strive for delivering high-quality projects that exceed our clients' expectations, ensuring that their vision is brought to life, while adding our expertise to enhance the final outcome and bringing happiness to the communities we serve by creating sustainable and aesthetically pleasing structures that enhance people's lives.

As a socially responsible company, we are dedicated to making a positive impact on the communities in which we operate. We hope to create job opportunities, support local businesses, and contribute to the overall development and welfare of our society.

We are driven by a passion for excellence and a genuine desire to make a positive impact on the construction industry in Egypt. Our large family of skilled hunters will go to great lengths to construct awe-inspiring buildings and leave a distinctive footprint in the field of construction on both Egyptian and global lands. We are committed to creating a work environment that is as fun and vibrant as a River cruise on the Egyptian Nile, where our employees can unleash their creativity while wearing stylish hard hats. Together, as a passionate team committed to excellence, we aim to be the preferred choice and brand name for all our clients' needs in Egypt with a long-lasting legacy.

We want to build a brighter future for Egypt, one construction project at a time.

We are dedicated to providing excellent heat insulation services that are suited to the unique requirements of businesses and industries. We put safety, effectiveness, and environmental responsibility first through cutting-edge technology and persistent dedication, which helps our clients' activities succeed and last for a long time.

The Marq Projects Management

Project Description

Arab Eagle Modern Engineering is executing the Water and Irrigation Tank Project in the WaterMarq Compound, New Cairo, for Marq Projects Management with ACE Moharram. Bakhoun as the consultant. The project is being delivered on a turnkey construction basis, encompassing all civil, structural, mechanical, and electrical works, including excavation, concrete and waterproofing, piping networks, pump and electrical installations, external works, and final testing and commissioning to provide a fully operational facility that supports the compound's irrigation and water supply needs.

According to the state's vision for the upcoming phase and the prioritization of the industrial sector, Egyptian Eagles Company has developed a strategy to enter strongly into the field of service and maintenance of major industrial facilities.

These services include all types of maintenance work, such as supplying metal structures in accordance with Egyptian standard specifications in terms of safety and security. It also includes thermal and waterproofing insulation work according to the technical principles upon which the factory was built and in compliance with its specifications.

THE NEXT PHASE

Based on the above, the company has entered into contracts for maintenance work with major factories, especially strategic industries such as reinforcing steel manufacturers in Suez and Ain Sokhna. Additionally, the company has won annual maintenance contracts with Ezz Steel, a leading iron and steel manufacturer.

In the next phase, we aim to expand by entering into contracts with other leading manufacturers in this field and other industries.
